I am a second year software engineer student at Fontys University of Applied Sciences. My main interest is in web development; I love to learn new JavaScript frameworks and play with CSS. My dream is to create usable and modern software products with like-minded people.

Languages & Skills:

{ Adobe Illustrator, XD }	{ JavaScript - AngularJS }	{ C# }
{ HTML5 }	{ PHP - Laravel, WordPress }	{ WPF }
{ CSS3 }	{ SQL - MySQL, PL/SQL }	{ WCF }

Education:

2016 – present	Fontys University of Applies Sciences – ICT & Software Engineering
	Relevant studies: Digital Publishing, UX design, Web development, Android, Networks, Object-oriented development, C#, Databases, Project management
2016 – present	FreeCodeCamp – Online learning community where I learn front-end development
	Relevant studies: JavaScript, AJAX, JSON, API consumption, Algorithmic scripting
2011 - 2014	SZTE-JGYPK, Web-Programming (vocational training)
	Relevant studies: Information systems, Software design and programming, Project leading studies. Internship at Selectric Kft.
2010 - 2012	SZTE-JGYPK, Procuration (minor)
	Relevant studies: Document handling and editing, Procuration and office organization, Typewriting
2009 - 2012	SZTE-BTK, Liberal Arts (Movie Theory and History) BSc
	Relevant studies: Media and Communication, Aesthetics

Work Experience

2016 – present	Junior Software Engineer – Smit Thermal Solutions
	I developed a data visualization software for processing machine log data, created a new frontend for the HMI in WPF and currently I am working on a new WordPress company website
2014 - 2016	Operator – Syncreon Technology (Tilburg)
	I built and wired server racks and did several tasks throughout the warehouse
2011 - 2014	Cashier supervisor, usher supervisor, buffet server - I.T. Magyar Cinema Kft
	I supervised the work of the student colleagues, waited on the customers and administered the daily makings
2010 - 2011	Technical helpdesk operator - Magyar Telekom Nyrt.
	I handled the customers' malfunctions, administered and provided sale services
